WANT TO SAVE

Many Texans Want to See the Vessel Stationed at Galveston.

Galveston, Tex., Jan. 14.-A statewide movement has been inaugurated to have the battleship Texas of the United States navy stationed permanently in Galveston harbor. The movement owes its inception to the recent announcement from Washington, D. C., that the Texas would not live to be rechristened the San Marcos, since the navy department had under consideration the proposal to dismantie the \$4,000,000 vessel and turn her into a target. The naval experts want to use the old battleship in experiments with naval ordinance at the Indianhead proving grounds on the Potomac river. This announcement has caused wide spread comment among Texans, and the opinion has been expressed through many channels that a more fitting end for the Texas would be to have her stationed in Galveston harbor, where the vessel could be utilized in a numit easy or hard for his son Ahab to be ber of ways, proving of historical in-a bad man and why?
